EDUCATION

University of Delaware, Newark DE

- PhD, Materials Science and Engineering — *June 2019 - Feb. 2025*
- Bachelor, Mechanical Engineering — *Sept. 2015 - June 2019*
  Aerospace Engineering Concentration, Mathematics Minor

EXPERIENCE

PhD Research - Dr. LaShanda Korley & Dr. Charles Dhong — *June 2019 - Feb. 2025*
University of Delaware - Materials Science and Engineering, Newark DE

- Inventor of 3 intellectual properties under patenting process by UD in US & EU
- Selected as inaugural Innovation Delaware Fellow with financial award from US SBA
- Led efforts for $5M grant to accelerate innovation in technology development for translational research
- Managed team of researchers for industry sponsored projects, proficient in report & proposal writing
- Lead researcher of NIH clinical trial for materials conducted with human participants
- Investigated hybrid & advanced additive manufacturing extrusion systems for part performance, in-line composite coextrusion for localized part properties, nonisothermal heat transfer & rheological modeling of polymer flow for property prediction, polymer thin films with durable interfacial mechanics
- Funding from US Army Research Laboratory, DOE CPI EFRC, NSF, NIST, NIH, Chemours

Managing Director — *May 2023 - Nov. 2024*
Falcon Additive, Wilmington DE

- Developed advanced additive manufacturing systems for gradient composite material structures
- Managed team, company operation, licensing, product development, prototyping, and manufacturing
- Demonstrated ability in technological innovation, commercialization strategy, and industry partnerships

SKILLS

- Mechanical & thermal design, surface characterization, technical writing, class 100 cleanroom trained
- Programming (Python, Matlab, Fortran), simulation (FEA, CFD, FVM), CAD (Solidworks, Inventor)

Materials Characterization

• Mechanical testing	• Atomic force microscopy (AFM)	• Scanning electron microscopy (SEM)
• Capillary & rotational rheology	• Dynamic mechanical analysis (DMA)	• Energy dispersive X-ray spec. (EDX)
• Spectroscopic ellipsometry	• Thermogravimetric analysis (TGA)	• Differential scanning calorimetry (DSC)
• X-ray reflectometry (XRR)	• X-ray photoelectron spec. (XPS)	• Fourier-transform infrared spec. (FTIR)

CONFERENCE PRESENTATION

- Rheological instabilities in additive manufacturing — *Society of Rheology 92nd Annual Meeting* — *Oct. 2021*

ACTIVITIES

- NSF Innovation Corps - National Science Foundation, Northeast Region — *June 2021 - Present*
- SAMPE - Society for the Advancement of Material and Process Engineering, UD — *Sept. 2016 - Present*
- Intramural & Summer League Basketball - UD & Wilmington, DE — *Sept. 2015 - Present*
